Undergraduate Software Engineer looking to bring my creativity, growth mindset, and leadership experience to work on game-changing projects with an internship in the Summer or Fall of 2024.

EDUCATION

- **Auburn University** — Auburn, AL
  Current fourth year student in Computer Science; Current Overall GPA: 3.5 — *Expected Graduation December 2024*
  Minor: Asian Studies
  Activities: Captain & President of the Auburn Club Tennis Team; Active and Leading member of the Auburn Association of Computing Machinery (ACM)

- **O'Fallon Township High School** — O'Fallon, IL
  High School Diploma — *July 2016 - May 2020*

SOFTWARE DEVELOPMENT EXPERIENCE

- **Software Developer Intern at Progressive Insurance**: Worked within the **Enterprise Application Integration Team** to successfully complete, deliver, and deploy several software projects using various skills and technologies whilst studying the company's framework for **Distributed Storage** and processing of **Big Data**.
  May 2023 - August 2023

- **Auburn University Competitive Programming Team**: Currently studying **Data Structures** and **Algorithms** in order to gather deep understanding of various types of computing and coding problems to be able to travel outside the University to compete in the International Collegiate Programming Contest (ICPC).

- **AidanKiser.com**: My personal website built with the **Next.js** & **React.js** frameworks in conjunction with **Javascript** & **HTML**. This website lists professional accolades, information about myself, & blog posts.

- **Python Bootcamp**: Completed an online course spanning several weeks designed to teach proficiency and complete understanding of the **Python programming language** and it's libraries. Utilized Python libraries to create a variety of programs from games to programs with identifiable objective uses.

LEADERSHIP EXPERIENCE

- **Captain and President of the Auburn Club Tennis Team**: Responsible for designing and organizing the Club's overall infrastructure. Tasked with overseeing all players, biannual dues, and roster creation for travel tournaments. Collaborating with other Club officers to arrange the Auburn University Club Invitational, held at our Auburn University, where we host several other University Club Tennis teams for a tennis tournament over a weekend.
  May 2022 - Present

- **Alliance Comics Toys & Games**: Software manager tasked with creating personalized live stream user interface for entrepreneurial business. General maintenance and oversight on software related projects such as website design and live stream design. Acquired bountiful knowledge on business related topics over my two years present.
